

375W Solar Pressure Pump

High-Efficiency Solar Power: This 375W DC brushless solar aluminum shell submersible pump utilizes solar power, making it an eco-friendly and sustainable solution for agricultural irrigation.

High Efficiency and Reliability: With a power range of 375-750W and a flow rate of 15-35m³/h, this pump is suitable for various agricultural irrigation applications, ensuring efficient water distribution and ...

24V 375W Solar Water Pump DC Brushless Permanent Magnet Solar Surface Self Priming Booster Water Pump for Irrigation System Pump

Tuhorse THS series submersible solar powered water pumps eliminate the need to be on a power grid at very competitive prices. In a typical live stock farm, a one time affordable investment on a Tuhorse ...

With our same best-selling RPS pump controller and a brushless motor, this pump offers small to medium scale surface/transfer/booster pumping with ease. Stainless steel impeller housing and ...

Rackworks top-of-pole mounts, rated for 90 mph wind speeds. Each WPK kit contains solar modules, rack and 30 ft. of MC4 cable for connecting the solar module to controller. Solar modules are either ...

Find what you need for solar water pumping. We carry solar powered water pumps (and AC pumps), along with accessories, hardware, and installation parts and kits.

Product Description Brushless DC QB60 household pressurized 36V high lift well water pumping solar self-priming pump

Solar pressure pumps are high-efficiency pumps specifically designed to run from solar panels which pump water from one site to another. That is ideal for the site without main power. Livestock ...
