

40-foot photovoltaic container for water treatment plant

These mobile systems are installed inside a seaworthy 20 or 40 ft containers or in combination to form complete systems with advanced water treatment and purification technologies.

We can deliver our systems in insulated (20 or 40 ft) containers. Containerization includes all piping and fittings connected, all cables and wires connected to instrument and control cabinet.

LZY's photovoltaic power plant is designed to maximize ease of operation. It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient ...

Pure Aqua is pleased to guide you on the latest technologies for water treatment and its incorporation inside containers (s). We encourage users to identify the unique specifications of your application so ...

Containerizing the WaterPODS(TM) makes them watertight and easily transportable. The structural integrity of the 20ft shipping containers and 40ft shipping containers remains intact. They ...

After several years of research and testing we have achieved a compact solar water purification plant design in a container that can supply up to 1000 m³/day of drinking water.

Our line of solar transportable power units (TMSPDC#174; Power AnyWhere Any Time#174;) provides stand-alone photovoltaic power. These portable units supply AC power just about anywhere the sun shines.

A Pure Aqua CRO Series Containerized Reverse Osmosis System is a self-contained, turnkey system that can function on-the-go or as a permanent water treatment plant, able to start pumping high ...

KYsearo 40ft containerized water treatment system that integrates a reverse osmosis (RO) system right into a 40-foot common container (roughly 12.19 metres long). It eliminates sa

BioKube offers containerized wastewater treatment plants for easy setup and relocation. This solution is ideal for remote locations such as mining camps and oil rig sites.
