t (A) O R 1Please refer to the installation manual or contact us to con.

Please be kindly advised that PV modules should be handled and installed by qualified people who have pro-fessional skills and please carefully read the safety and installation instructions before using our ...

The Trina 575WP Vertex TSM-DE19R Solar Panel is the perfect choice for those looking to maximize their solar energy production. This powerful panel is capable of generating up to 575 watts ...

The SunEvo N-type Bifacial Half-cell Module can reach power output up to 575W. N-type material has zero LID/LeTID risk, and make modules to be higher reliable, higher bifacility, higher efficiency, lower ...

DIMENSION AND WEIGHT Dimension Length 2,278 mm Width 1,134 mm Depth 30 mm Weight 32 kg
Panel Area 2.58 m²

Detailed profile including pictures, certification details and manufacturer PDF.

How solar panel size and dimensions affects the system design. When it comes to designing a optimal solar system the solar panel size plays a key role: The height and width of each panel will determine ...

Manufactured by Jinko, a leading name in solar technology, these panels are designed to deliver exceptional power output and efficiency, even in challenging environmental conditions.
