

75kW Modular Energy Storage Unit for Bridges

This high-voltage, stage-fed energy system uses an MMC cascade H-bridge topology to modularize the system in series rather than parallel. This design enables direct 38kV direct grid connection without ...

The Reservoir Storage unit is a modular high density solution that is factory built and tested to reduce project risk, shorten timelines and cut installation costs.

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

PAC-75-50 system is an intelligent and modular power supply equipment integrating lithium battery and MPCS.

Shanghai Elecnova Energy Storage Co., Ltd. is a technology-based enterprise who focus on overall solutions for energy storage systems. Our company have the overall supporting capability for the ...

Stem"s Modular ESS is available in both AC- and DC-coupled architectures as illustrated in the figure below:

Integrated with BMS system and UPS unit, ensures stable operation of battery system Built-in DC pre-charging function, easy access for battery system, plug and play

Committed to bridging China"s advanced new energy manufacturing capabilities with international market needs, the company aims to introduce high-quality green energy products and services to the ...

Introducing the S6-EH3P (75-125)K10-NV-YD-H series hybrid inverter. High voltage, three-phase energy storage for commercial applications. The power range includes 75K, 80K, 100K, and 125K.
