

# Brussels Power Battery Energy Storage Project

It is the site of the largest permitted battery energy storage system (BESS) on the continent at 2.8GWh, one of the largest under construction at 800MWh, and two under-construction ...

French electric utility ENGIE SA has undertaken construction of a 200-MW/800-MWh battery energy storage system (BESS) at its Vilvoorde site on the outskirts of Brussels in Belgium.

Engie has inaugurated a battery storage park on the site of a former coal-fired power plant in Vilvoorde, in the industrial suburbs of Brussels. The infrastructure, commissioned in late 2025, spans 3.5 ...

Scheduled to begin construction in March 2026 and commissioned by September 2027, the project aims to deliver grid flexibility, integrate renewable energy, and enhance national grid ...

ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels. This project is ENGIE's third battery storage ...

The project marks a significant new milestone in expanding the collaboration between NHOA Energy and ENGIE, as it follows the ongoing construction of the 400 MWh Kallo BESS, ...

"With this new battery park, we are strengthening our current position as the Belgian reference in flexible energy generation and storage. It is no coincidence that flexibility is one of the...

Brussels, November 2024 -- French energy giant Engie has announced that its 200 MW/800 MWh battery energy storage system in Vilvoorde, Belgium, is now fully operational, marking ...

The BESS project located at Engie's Vilvoorde gas power plant site, north of Brussels, was completed barely 16 months after the groundbreaking ceremony and two months ahead of ...

French electric utility Engie SA (EPA:ENGI) has launched construction of a 200-MW/800-MWh battery energy storage system (BESS) at its Vilvoorde site on the outskirts of Brussels in Belgium.
