

Centralized photovoltaic panel transport tool

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

The TranzVolt is a battery powered, solar panel hoist, which allows for the vertical lift of modules to the rooftop. This is an excellent option for projects located in remote, off grid, or new construction areas ...

The Solar Panel Caddy is a tool designed to assist with a safer and easier method to lift and carry modules around the job site and up ladders.

Alum-a-Lift is pleased to provide engineered material handling solutions to the solar, power, and energy industries. The standard chassis offers proven lifting power and allows for heavier and dynamic side ...

The Solar Panel Caddy is designed to assist with the lifting and carrying of solar panels. The tool was created out of the frustrating daily grind of carrying solar panels onto a roof.

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

The NextGen TranzVolt e-Hoist(TM) is a state-of-the-art tool used to lift solar panels (Solar Kit) and roofing supplies (Roofing Kit) to and from the roof quickly, easily and safely.

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool enables you to lift solar modules to the ...

Handling solar panels is easy and efficient with UniMove solar panel lifters. Everyone can lift and tilt large solar panels, powered by vacuum technology. UniMove offers a solar panel lifter for every step ...

RGC's Platform Hoists and Swing Hoists are essential tools for solar panel installations, offering safe and efficient solutions for transporting heavy and bulky materials to rooftops and elevated areas.
