

Chins lifepo4 battery review

How much does a chins battery cost?

Both batteries had a stand voltage of 13.2V at the time of unpacking. These batteries do not have low temperature cut-off. They cost \$899 each, and CHINS offers an additional 5% off at purchase. The documentation is a small printed manual in color with all of the information you need (specs and parameters) for charging, use, care and warranty.

What is a chins LiFePO4 battery?

The CHINS LiFePO4 Smart 48V 150Ah Battery offers long-lasting, lightweight performance with built-in BMS protection, Bluetooth-enabled monitoring, capacity expansion options, and versatile use in home energy systems, RVs, golf carts, marine applications, and more.

How long does a chin battery last?

CHINS batteries last over 2,000 charge cycles, far outlasting traditional lead-acid batteries, which typically last only 300-500 cycles. They are about 30% lighter than lead-acid counterparts, making them easier to handle and install.

Are Chin batteries any good?

There are some people saying these batteries are no good but if the rumor about those people is true, they have never owned or used a Chin battery. This model comes with a built-in battery management system or BMS as well as a high temperature cut off switch/sensor.
