

Clean Energy Photovoltaic Panel Scam

You may have heard stories about people being misled and fed false information by solar panel salespeople. Falling prey to these scams can end up costing you thousands of dollars.

Everything you need to know to avoid a solar panel scam and what to do if you feel you've been a victim of predatory solar companies.

Fueled by a drop in solar panel costs, an urge to fight climate change, the availability of real but sometimes confusing government incentives and a desire to save on rising energy bills, solar ...

Clean energy tax credits are paying off for many, but experts warn of increasing scams. Here's what you should know.

These scams start with an unexpected phone call, message on social media, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they ...

Learn how to distinguish green energy scams from legitimate clean energy initiatives.

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...

The Treasury Department works with other federal agencies, including the Consumer Financial Protection Bureau (CFPB) and the Federal Trade Commission (FTC) to spread the word about ...

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal. Here's what you should ...

Your social media feed is probably full of them: ads promising free solar panels, guaranteed savings, or special government programs that'll pay you to go solar. Some even claim ...
