

# Global solar inverter listed companies

What is the solar inverter manufacturing industry?

The solar inverter manufacturing industry plays a crucial role in the renewable energy sector, focusing on converting solar energy into viable power for consumption. Companies in this field create solar inverters, power management systems, and energy storage solutions, catering to residential, commercial, and utility markets.

Who makes the best solar inverter?

Building on almost a century of power electronics expertise, Italy's Fimer has quickly become a leading global provider of solar inverters. Their comprehensive portfolio includes string, central, and large-scale inverters integrating storage and smart grid capabilities.

Which companies are leading the inverter market?

Other enterprises, such as TBEA, Senergy, Deye and Ginlong (Solis), followed closely behind. The capital market also recognised the inverter sector when SOFAR successfully went public in April, despite the cooling new energy IPO market.

Who makes the most PV inverters in 2022?

In 2022, Huawei will become the most important PV converter market globally, generating around 29 percent of global sales of PV inverters. Huawei followed Sungrow Power Supply and Ginlong Solis in second and third positions, respectively, according to shipment numbers. Who is the largest manufacturer of PV inverters?

Other top nature and climate news to know: Wildfire pollution reaches homes of one billion every year; Europe unblocked over 500 dams in 2024.

Amid trade tensions and high policy uncertainty, the path for the global economy will be determined by how challenges and opportunities are approached.

The Global Risks Report 2026 analyses global risks through three timeframes to support decision-makers in balancing current crises and longer-term priorities.

In a time of fragmentation, ASEAN stands out as a rare economic bright spot because it's leveraging global uncertainty into a strategic advantage.

With the rise of the global energy storage industry, the inverter in the energy storage system is particularly important. Let's discuss the leading enterprise in the inverter in the global ...

This report presents Wood Mackenzie's comprehensive assessment of the global PV inverter industry for H1 2025. It benchmarks 23 leading manufacturers across seven countries using ...

Explore the top solar inverter manufacturers companies, like KACO New Energy and Fimer, driving innovation in renewable energy solutions.
