

JA Solar 325W photovoltaic panel

Specifications subject to technical changes and tests. JA Solar reserves the right of final interpretation.
Remark: Electrical data in this catalog do not refer to a single module and they are not part of the ...

Powered by high-efficiency PERCIUM cells, this series of high-performance modules provides the most cost-effective solution for lowering the LCOE of any PV systems large or small.

Lower cost at high energy output than most panels. Less shading impact and lower resistive loss thus increasing panel production. Better mechanical loading tolerance which improves longevity of the ...

All you need to know about the JAP72S01-325/SC solar panel including rating, cost, efficiency, and warranty terms.

Lower cost at high energy output than most panels. Less shading impact ...

These double-glass modules assembled with bifacial PERCIUM cells have the capability of converting lights incident on their rear side into electricity on top of what is being generated by the front side, ...

High class module - assembled with multi-busbar PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature-dependent performance, reduced ...

The 325w JA Solar panel has the Multi Busbar Half Cut Mono Cell technology with high efficiency passivated backside - PERC - (Passivated Emitter and Rear Cell) for increased efficiency and yield.

JA Solar engineers implemented the latest technologies in their panel, including multi-busbar design, PERC cells and half-cut configuration. All of it ensures solid power output of 325 ...

JA Solar 325 Watt Solar Panel - JA-JAP72S01-325-5BB o EcoDirect sells JA Solar Panels at the lowest cost. Order Online or Call Us! 888-899-3509.

JA bifacial modules are assembled by high-performance PERCIUM encapsulated by glass-glass panels, are capable of converting energy lights on front and diffuse light, as well as reflected and scattered ...
