

Jiaxi Solar Power Generation

Gansu Province Jiayuguan Zhongli Talesun Grid-Connected solar farm is an operating solar photovoltaic (PV) farm in Jiaxi Photovoltaic Industrial Park, Jiayuguan, Gansu, China.

LONGi established cooperation with Xiuzhou district, Jiaying in 2019. In 2020, it launched its 7-gigawatt high-efficiency module project in Xiuzhou. In 2021, it became the first ...

By leveraging digital tools to enable low-carbon production, deploying rooftop photovoltaic power stations, procuring green electricity certificates and carbon credits, and ...

With long sunshine time, sufficient illumination and high atmospheric transparency, abundant solar energy resources provide excellent conditions for the development of photovoltaic power generation ...

The facility is connected to the grid via a 330 kV transmission line, feeding into the Jiayuguan Jiaxi solar power aggregation station. Construction began in September 2024 and ...

In 2024, the Jiaying Production Base embarked on an ambitious zero-carbon transformation. By deploying rooftop photovoltaic power stations, procuring green electricity ...
