

There are many communities in the world vulnerable to natural disasters, however, they require support and expertise to develop microgrids. Using our technical, regulatory and policy expertise on ...

Pristina University just launched Europe's first Balkan Energy Storage Certificate program. With 75 students enrolled in 2024, it's creating homegrown expertise rather than relying on foreign consultants.

This Pristina-based startup's been installing lithium-ion battery systems alongside commercial solar arrays since 2021. Their 2MWh project at Peja Industrial Park shows how storage can stabilize ...

Salem, OR -- Last Thursday, Governor Tina Kotek signed House Bills 2065 and 2066 into law, two pieces of landmark legislation which aim to increase and expedite access to microgrids across ...

To achieve our Community Microgrid vision, the Clean Coalition is designing and staging numerous Solar Microgrids at critical community facilities, which will be ready to connect to larger Community ...

Secure energy resilience for your community and its critical facilities. If your community is seeking energy resilience for extreme weather, Public Safety Power Shutoff events or other outages, PG& E's ...

Case studies like blockchain-based microgrids in Brooklyn and mini-grid schemes in African nations demonstrate the practical benefits of these systems, including greater resilience, ...

Explore community microgrids for rural sustainability, ensuring energy access and resilience with renewables.

This paper conceptualises existing literature on community microgrids, focusing on the representation and inclusion of community preferences, needs and behaviour across the ...

The trajectory of community microgrids is not predetermined; a darker, more fragmented future is just as plausible as a regenerative one. This negative scenario, a slow decay into systemic ...
