

Procurement of 40kWh Power Distribution and Energy Storage Cabinet for Bridges

Let FEMP's steps to evaluating electricity procurement guide the way. Find utility programs that meet statutory requirements or offer financial incentives. FEMP's six-phase process for implementing ...

Con Edison and Orange & Rockland are seeking bids for scheduling and dispatch rights for distribution and transmission connected energy storage systems that will achieve commercial operation by end ...

Please describe the unique services and benefits that distribution-connected energy storage systems can provide over transmission-connected energy storage systems.

The goal of this attachment is to highlight effective energy storage procurement policies and programs in other states that might be helpful to the CPUC as it seeks to break down barriers to cost-effective ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), Power Purchase ...

There are three main types of procurement contracts: (1) power purchase agreements (PPAs) or energy storage services agreements; (2) engineering, procurement, and construction ...

The following provides information on California energy storage legislation, the CPUC energy storage program and projects evaluation, CPUC energy storage proceedings, current energy ...

This comprehensive guide explores the process of energy storage system procurement and explains how leveraging business intelligence and data analytics can improve outcomes for electric power ...

Energy Storage Legislation
Energy Storage Procurement to Date
Energy Storage Procurement Evaluation
Scaling Up and Crossing Bounds
Energy Storage Proceedings
Other Energy Storage Related Rulemakings
Additional Resources
To date the CPUC has approved procurement of more than 1,533.52 MW of new storage capacity to be built in the State. Of this total 506 MW are operational. The AB 2514 mandate is procured in three distinct grid domain targets, with some flexibility between the grid domain targets of customer sited, distribution-connected, and transmission connected....See more on cpuc.ca.gov
