

Procurement of energy storage equipment for podgorica power grid

In a pioneering move for state-owned utilities in the Balkans, Montenegro's largest power utility, EPCG, is planning to launch a large-scale, battery energy storage procurement exercise by the end of 2024.

EPCG, Montenegro's state utility, aims to procure two grid-scale battery storage systems (BESS) totaling 240 MWh in a EUR48 million (\$55.9 million) tender.

The new tender envisages the procurement of a battery between 100 kW and 130 kW, with 200 kWh to 260 kWh in capacity. This is a pilot project, and the procurement is valued at EUR ...

The list includes providers of long-duration battery and solar thermal energy storage solutions for power plant and grid operators, along with companies that provide energy storage as a service ...

EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand.

Montenegro's state-owned power utility, Elektroprivreda Crne Gore, has launched a tender for the procurement and installation of two battery energy storage systems with a total ...

State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage installations, each designed to deliver 30 ...

Montenegro's state-owned power utility, Elektroprivreda Crne Gore (EPCG), is set to issue a tender in January for the procurement of battery energy storage systems (BESS) with a total ...

Summary: Explore how advanced energy storage systems are transforming Podgorica's renewable energy landscape. Discover practical solutions for solar/wind integration, cost-saving strategies, and ...

EPCG, the Electric Power Company of Montenegro, will launch a public tender for the procurement of 300MWh of battery energy storage system (BESS) technology before the end of the ...
