

Solar Support Project Research Report

Each project funded by SETO must provide a report of its findings upon the project's completion. Find more info on those reports here.

The interviews were supplemented with a review of literature on factors known to hasten solar development, data on permitting timelines for solar projects sited under different planning regimes, ...

The Solar Massachusetts Renewable Target (SMART) Program compensates homeowners for their solar electricity production. Here's how it works.

Wind generation has been traditionally concentrated in the central part of the country, such as in the grid operated in the Midwest by the Midcontinent Independent System ...

The paper reviews approximately 50 papers, related to more than 100 different case studies regarding solar energy (Concentrated Solar Power, Photovoltaic), wind power, hydropower ...

On July 4, 2025, President Trump signed into law Congress's budget reconciliation bill, H.R. 1--commonly known as the One Big Beautiful Bill.

Estimating the technical potential of community solar is a nuanced process that considers installations ranging from individual rooftop solar installations to large-scale utility solar projects.

What's Next for the OBBB and the Solar Tax Credit? The release of the text today is an important but incremental step in the process. Next, the Bill must be voted on and approved ...

Congress and President Trump just passed legislation to cut the 30% residential solar tax credit in 2026--nearly a decade ahead of schedule. For homeowners considering ...

Launched during the 16th IRENA Assembly in Abu Dhabi, the report -- Local Environmental Impacts and Benefits of Large-scale Solar PV Plants -- comes at a time of rapid ...

This study presents the results of applying different methodologies to assess the sustainability of the development of solar energy technologies, where the importance of this type of ...

NLR's solar energy research leverages our expertise--from materials to systems to commercialization--to continually improve the affordability, performance, and reliability of this ...

Wind and Solar Energy Projects in the Midwest. Wind and solar energy in Iowa, Illinois, Indiana, Michigan,

Solar Support Project Research Report

Minnesota, Missouri, North Dakota, South Dakota, and Wisconsin.

Space weather has seen a flurry of activity this week. An explosive solar flare that erupted Tuesday, just two days after the sun unleashed one of its most powerful flares, ...

Solar is Creating Jobs and Driving Economic Growth The Interstate Renewable Energy Council (IREC) has reported that 280,000 Americans work in solar, as of 2024. Over 10,000 solar companies across ...

In 2023, a Berkeley Lab team worked with the University of Michigan and Michigan State University to conduct the first-of-its-kind nationally representative survey of LSS neighbors as part of the ...
