Does Tesla have a solar roof?

With the Tesla app, you can monitor your energy production in real time. Control your system from anywhere with instant alerts and remote access. Built with all-weather durability, Solar Roof consistently generates energy for years, maximizing your solar investment over time. Learn more about Solar Roof.

Is the Tesla Solar Roof still alive?

Tesla aimed for the solution to be competitive with higher-end roofing options, but it remains expensive and much less affordable than many durable roof options, plus solar panels. In short, the Tesla Solar Roof is still alive, but it's nowhere near the revolutionary product Tesla claimed it would be.

How much does a Tesla Solar Roof cost?

Tesla's Powerwalls are solid options, but they're also quite expensive. The typical price of a solar battery, according to my research, falls between \$6,000 and \$18,000, depending on the capacity you need and the brand you choose. Tesla allows you to pay for your Solar Roof in full up-front with cash or finance your purchase with a loan.

How efficient is Tesla's Solar Roof?

Third-party testing suggests that Tesla's Solar Roof achieves an overall efficiency of between 8% and 14%. This is the amount of energy that hits a Solar Roof, which gets converted into electricity you can use to power your home.
